

Choose which topic to discuss at your table.

1. Implementing screening and treatment of OUD in ED and inpatient settings

Discussion questions:

- i. Describe current management of OUD in your ED/hospital-where does your ED/hospital fall on the basic/advanced level currently?
- ii. What barriers exist in your setting to achieving the next higher level of care?
- iii. What best practices can you offer related to overcoming common barriers?

OR

2. Managing alcohol withdrawal in the outpatient setting

Discussion questions:

- i. Describe current practices regarding ambulatory alcohol withdrawal management in your practice or community.
- ii. Discuss best practice recommendations for ambulatory management-what barriers that exist in your setting for universally offering ambulatory alcohol withdrawal support.
- iii. What best practices can you offer related to overcoming common barriers?
